## ABOUT COMPANY

HISTORICALLY, OUR TEAM CONSISTED OF 3D ENTHUSIASTS, WHO ASSEMBLED THE SIMPLEST RENDERING STATIONS FOR RENDERING IMAGES IN THE GARAGE. WITHOUT HUGE INVESTMENTS, FOUNDERS ASSEMBLED FARMS FROM PC COMPONENTS AND MADE FIRST PROFITS USING THEIR PERSONAL COMPUTERS.

AFTER A YEAR OF WORK, THE FOUNDERS WERE ABLE TO ASSEMBLE THEIR FIRST PROFESSIONAL RENDERING PLATFORM ON INTEL XEON V3, WHICH HAD 30GB OF RAM AND SUPPORTED ALMOST ALL THE SOFTWARE NEEDED FOR RENDERING. LESS THAN 3 YEARS LATER, GREMEX WAS FOUNDED, TOP-TIER PLATFORMS WERE PURCHASED ON XEON V4 PROCESSORS WITH 240GB OF RAM, AND THE COMPANY EXPANDED BY ADDING A GPU RENDERING METHOD. NOWDAYS, GREMEX HAS 24 CPU FARMS AND 14 GPU FARMS THAT SUPPORT ALL THE NECESSARY SOFTWARE.
